

main.c

Share

Run

```
1 #include <stdio.h>
2 #include <sys/ipc.h>
3 #include <sys/shm.h>
4 #include <string.h>
5
6 int main()
7 {
8     key_t key = 1234;
9     int shmid;
10    char *str;
11
12    shmid = shmget(key, 1024, 0666 | IPC_CREAT);
13    str = (char *)shmat(shmid, NULL, 0);
14
15    printf("Enter a message: ");
16    scanf("%[^\n]", str);
17
18    printf("Data written in shared memory: %s\n", str);
19
```

Output

Clear

```
Enter a message: Hello World
Data written in shared memory: Hello World

=== Code Execution Successful ===
